Directions

- Print both hearts that follow on red or pink cardstock and cut them out
- Give one heart to your child with a basket of cut up construction paper in red, orange, yellow, green, blue, purple and pink (You can mix all of the colors into one basket!)
- Hand your child a glue stick (the purple disappearing glue is perfect for this so your child can see where the glue is)
- Have your kiddo glue the cut up construction paper all over the heart
- When finished, let the heart dry (this should only take a few minutes, depending on how much glue was used 😊) and trim any paper hanging over the edges
- Take the second heart and cut it in half vertically
- Glue (or staple) it to the heart your child decorated. Be careful to only glue a small portion of each side so you can still open the heart
- Allow the glue to dry and write 'I Love You To Pieces!' on the front flaps
- Use heart stickers, stamps or markers to decorate the front
- Now, send to your loved ones and make their day! 😊
