

Summer Activity Calendar - 2026

From the Creator of Moments Enriched

Summer Activity List

Welcome to the best summer of your life! Use the calendars that follow to keep your kids engaged and occupied during these long summer days.

Like they say, 'An activity a day, keeps the boredom away!' (If they don't already say that they will after seeing this stacked calendar!)

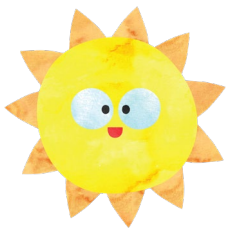

How To Use The Ultimate Summer Calendar:

- Print off the calendars that follow and post them somewhere visible
- Go back to the momentsenriched.com to see the link for each activity with a complete breakdown and materials list. I would recommend visiting each link at least a day in advance (or the weekend prior if you are able) to prep for the activity. Some of these activities can be prepped far in advance, so maybe have a prep day and get as many ready as you possibly can. That way it is just grab and go!
- If you would rather do the activities in a different order, or only need an activity for certain days, print off the blank calendars and fill in a rhythm that works for you!
- These activities were mostly created with kids aged 3-6 in mind. However, my oldest, who is 10, still loves all of these activities, so I wouldn't put a cap on age!
- Here is the website link in case you forget where to find all of the goodies:
